

# Comprehensive Data Catalog Migration Services

## Overview

Alation's Data Catalog Migration Services offer a holistic approach to transitioning data assets from your current third-party catalog to Alation. Leveraging our extensive experience in successfully guiding customers through migrations from a variety of platforms, including Collibra, Informatica Enterprise Data Catalog (EDC)/Informatica Axon, and others, Alation Professional Services is uniquely positioned to navigate the complexities of your transition. We understand that each migration is unique, and our team is dedicated to ensuring a tailored, seamless transition that aligns with your organizational goals, governance requirements, and data discoverability objectives. We're here to ensure your move to Alation is efficient, secure, and focused on your data strategy.

## Migration Approach

- **Initial Assessment and Scope Definition:** We'll conduct a thorough review of your current catalog structure and work with you to identify and select the content that will transition to Alation. This step is crucial for understanding the breadth and depth of your existing data landscape.
- **Catalog Mapping and Approval Process:** Alation Professional Services will align your existing catalog components, including assets, fields, and templates, with corresponding elements in Alation. This detailed mapping ensures a seamless transition, culminating with your sign-off.
- **Migration Proposal and Planning:** Alation will prescribe the most effective migration strategy tailored to your unique needs, ensuring a streamlined transition to our platform. We take the lead in meticulously planning and designing the migration path that best suits your organizational goals.
- **Customizing Alation Catalog:** Alation Professional Services will guide you through tailoring the Alation catalog to suit your specific needs, setting the stage for a smooth content migration process. This involves adapting the catalog structure and functionalities to ensure they align with your requirements and our best practices.
- **Migration and Validation:** The migration process will be executed, followed by a comprehensive review phase where you can assess the transferred content for accuracy and integrity. This validation step is essential to ensure the migrated data meets your standards and expectations.

## What We'll Accomplish

### Personalized Migration Strategy

Customized project plan to meet the specific needs and timeline of your migration project.

### Expert-Led Transition

Guidance from Alation Professional Services throughout the migration process.

### Optimized Catalog Design

Simplification and optimization of your existing catalog design for enhanced data discoverability within our platform.
